Re: Inquiry Regarding Accuracy of News Article

Ladies and Gentlemen:

We have noted the publication of a news article in the *Philippine Daily Inquirer* on 26 April 2025¹, titled “Maynilad’s Pasay water treatment facility now 82% complete”. The article reported in part that:

“MANILA, Philippines — Maynilad Water Services Inc. said its P700-million facility in Pasay, designed to convert treated used water into drinking water, is nearing completion, with its progress rate now at 82 percent.

In a statement on Friday, the West Zone concessionaire said the water plant was on track for completion by December, boosting Maynilad’s production capacity by 12 million liters per day (MLD).

xxx

Maynilad has been heavily investing in its infrastructure, which includes more water sources, pumping stations and reservoirs, wastewater facilities, and water treatment plants. For 2025, the company has set a plan to allot up to P39 billion in capital expenditures.
